

EGYPTAIR MAINTENANCE & ENGINEERING, SKAN Aviation Announce New Partnership in Dubai

Dubai | 19 November 2019

EGYPTAIR MAINTENANCE & ENGINEERING signed a new partnership agreement with SKAN Aviation following a formal signing event on Tuesday, 19 November 2019. Through the partnership, the Egyptian MRO has established a line maintenance station in Dubai International Airport, along with base maintenance facility to be established soon.

"It is a great pleasure for us to declare today that we have a new station in Dubai Airport in a strategic and promising partnership with SKAN Aviation. We are keen to be present in as many stations as possible to give a variety to our 130+ customers and attract more of them. Our teams engaged to streamline maintenance activities whenever and wherever the customers' aircraft are," said Eng. Mostafa Ali El-Din Imam, Chairman & CEO of EGYPTAIR MAINTENANCE & ENGINEERING.

According to Pilot Ahmed Adel, Chairman & CEO of EGYPTAIR HOLDING Company: "EGYPTAIR has a vision to provide base maintenance services in in one of the UAE's airports. It is a major objective for us to establish a new base maintenance hangar. We rely much on our workforce, who enjoy outstanding skills and work professionally as they are competent to realize the discipline of time. We bet on engineering excellence and precision, and reference standards secure the reliability of our services."

SKAN Aviation CEO Ashraf Nasser was pleased to sign the agreement with EGYPTAIR MAINTENANCE & ENGINEERING, in presence of SKAN Aviation Chairman HE Ibrahim Abd El Malik, SKAN Aviation Board Members Mr. Mohamed Natafji, Mr. Osama Shanti, and Mr. Khamis Fayez Al Kaabi. "We are glad to sign a partnership agreement with EGYPTAIR MAINTENANCE & ENGINEERING in Dubai Airshow 2019, and we see it as the first building block in our future cooperation and we do have a strong vision to expand towards other airports; mainly Abu Dhabi, Al Ain and Sharjah," said Ashraf Nasser, CEO of SKAN Aviation Group. He added: "We have clear objectives in the next phase, most notably providing a world class service to our customers and we trust EGYPTAIR MAINTENANCE & ENGINEERING well-earned reputation is a major element in attracting customers. Aviation industry is most demanding in terms of safety, precision and punctuality, for which we are mobilizing our well trained and skilled

human resource. We will spare no effort to satisfy our clients' expectations and make sure that we provide them with quality and value. If sky is the limit, our ambitions are limitless."

The new station provides technical services for aircraft types A330, A320, B737-800, B777, and B787 and has already started its operations.
